

RadarTrack

Continuous Level Monitoring System

Monitor Your Product, Anytime, Anywhere.

RadarTrack™ is an advanced non-contact radar level sensor for all powders, liquids and bulk commodities.

RadarTrack sensors are ideal for high-precision continuous level sensing of granular and powder product in hopper or flat bottom, round, square and interstice bins and silos.

Applicable Industries: Grain, Food, Cement and Aggregates, Plastics, Wood and others.

RadarTrack™ in action

Best features in the industry

Extremely Rugged and sealed design for total reliability.

Integrates easily with the SafeTrack software, a PLC or a remote panel-display.

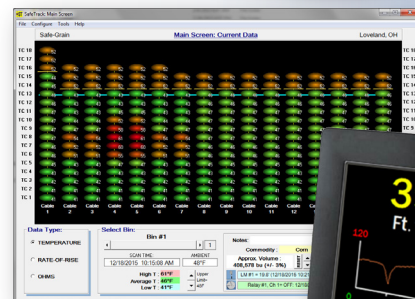

Wireless options for cost saving SafeTrack integration.

Removable LCD Display for easy programming and reading.

Hazardous Location Approvals: CSA/FM Class II Div 1 Grp E, F, G; CSA/FM Class I Div 2 Grp A, B, C, D, T4; IECEx; ATEX II 1D, 1/2D, 2D

US
Class I, Div 2;
Class II, Div 1
Groups E, F, G

- Optimized 78 Ghz and narrow 4° beam
- Measuring range up to 131' (40m)
- Immune to extreme dust and high temperatures
- Flat, aiming and sloped-roof mounting flanges
- Analog 4-20mA output, loop powered (24VDC)
- RS-485 output with optional "Interface Module"
- Simple installation and commissioning
- No moving parts for maintenance free operation
