

EZMount

Shaft Mount Motion Sensor

Monitor Your Equipment, Anytime, Anywhere

Maxi-Tronic EZMount motion sensors simplifies sensor placement on your bucket elevators, drag conveyors, screw conveyors, and other rotating equipment.

Combine with the MaxiScan™ 12M or MT600 Motion Controllers to provide under-speed detection with dual-setpoint 10% and 20% slowdown relay outputs, large digital speed display, audible and and highly visible alarm indicators.

EZMount™ in action

Easy to install motion sensor for Maxi-Tronic MaxiScan 12M, MT400, MT600 and other motion control systems.

All-in-One design with sensor, housing, magnetic mount, conduit fitting, cable, and anti-rotation strap in one compact unit.

Totally enclosed for increased personal safety and lower maintenance.

NEW: See the new **EZMount21™** CSA certified Class II Div 1 sensor for hazardous locations.

- Low voltage and high voltage models
- Magnetic mount option
- Replaceable sensors: many types available
- All-in-one compact design
- Safe, fully enclosed target assembly
- Easily add and remove targets
- Low maintenance
- MaxiScan 12M and MT600 Controller compatible
